## Commitment to Academic Success

Dear Parent/Guardian,

At Kelly Lane Middle School, we take great pride in helping our students achieve at high levels. In each subject, teachers have identified the essential learning expectations based on the state standards. It is our expectation that Kelly Lane Knights will master each learning expectation established for each subject, and will therefore be better prepared for success in middle school as evidenced through grades and state assessment (TAKS) scores.

We recognize that all of our students, at some moments, may need extra time and support in their learning. Therefore, we will provide our students the opportunity to master their learning through these three major campus practices.

1. **Academic Interventions based on Assessment Data:** Benchmark Tests, Practice TAKS tests, and Teacher-Made Assessments will be used to determine small group tutorials through lunch, during school, and "Catapult" times.
2. **Academic Interventions based on Homework:** KLMS teachers are committed to making sure that work sent home is reflective of essential learning expectations. When students don't complete this work, we do not have accurate information telling us that a student mastered that learning expectation. Students that do not complete work will be required to attend outside of class interventions: Lunch Homework Lab, After School Homework Lab, Friday Afternoon Homework Recovery. The classroom teacher will communicate with parents when After School or Friday Afternoon Homework Recovery is needed.
3. **Mastery of Assignments/Tests:** Any student that makes a grade below passing on a major assignment/test shall be given the opportunity to redo the assignment or retest. Students may request the opportunity and teachers will express the expectations the student must fulfill (tutorials, corrections) to receive the appropriate credit.

Kelly Lane is a high quality middle school because of our students, teachers, and their combined attitude toward quality school work through assignments and assessments. We appreciate your partnership and invite any comments or suggestions you may provide for the benefit of KLMS students.

Regards,

Devin Padavil, Principal
