

A NOTE FROM THE PRINCIPALS AT WPS AND WES:

The bus lane is now open in the mornings for parent drop off! After our trial and survey last year, we found that this helped the flow of traffic in the WES and WPS car lanes. In order to maintain a good relationship with our new bus company, Petermann, and keep this transportation option open, we must follow a few rules. The bus lane is only open for MORNING drop off after 7:20am. Do not enter the bus lane before 7:20am and do not use the bus lane at dismissal time.

Students may only exit the vehicle on the curb side of the car. It is very dangerous for children to open car doors and walk in the flow of traffic.

Do not park or exit your vehicle at any time. Make sure your children are prepared to exit the car on the right side without your assistance.

Please be respectful and courteous drivers. The bus lane's primary use is for the buses. We are "borrowing" the lane to increase the efficiency of our traffic flow, but the buses must be able to enter and exit the bus lane promptly in order to stay on their schedule.

Drive slowly and be very cautious at the entrance and exit of the bus lane. We have seen many parents watch their child safely walk to the school building but forget to look for cars who are coming from behind as they merge back into the traffic. Also, watch out for the many pedestrians using the sidewalks around the entrance and exit of the bus lane.

All students must walk around and enter the front doors of the building.
