

Algebra II Assurance Words

These are the “key” math vocabulary words that Algebra II students need to have mastery of (grade level appropriate) by the end of their year in Algebra II.

1	Absolute Value Function
2	Asymptote
3	Completing the Square
4	Complex Number
5	Conic Sections
6	Degree of Polynomial
7	Determinant
8	Direct and Inverse Variation
9	Discriminant
10	Domain/Independent Variable
11	Exponential Growth
12	Extraneous Solution
13	Feasible Region
14	Imaginary Number
15	Intercept/Zero of a Function/Root/Solution
16	Inverse Function
17	Logarithm
18	Matrix
19	Natural Log
20	Parameter
21	Perfect Square
22	Quadratic Formula
23	Radical/Radicand
24	Range/Dependent Variable
25	Rational Function
26	Rationalize a Denominator
27	Regression
28	Simplify vs Solve
29	Symmetry
30	Transformation
