

Algebra Assurance Words

These are the “key” math vocabulary words that Algebra students need to have mastery of (grade level appropriate) by the end of their year in Algebra.

1	Coefficient
2	Constant
3	Continuous and Discrete
4	Dependent and Independent Variable
5	Direct Variation
6	Distributive Property
7	Domain and Range
8	Equation and Inequality
9	Evaluate
10	Exact vs Approximate
11	Exponent/Power
12	Factoring
13	Function
14	Function Notation
15	Intercepts/Zeros of a Function/Roots
16	Inverse Variation
17	Linear Function
18	Monomial, Binomial, and Trinomial
19	Parabola
20	Parent Function
21	Point Slope Form
22	Quadratic Function
23	Radical/Square Root
24	Rational and Irrational Numbers
25	Slope-Intercept Form
26	Slope/Rate of Change
27	Solution Sets
28	System of Equations
29	Variable
30	Vertex
