

Precalculus Assurance Words

These are the “key” math vocabulary words that Precalculus students need to have mastery of (grade level appropriate) by the end of their year in Precalculus.

1	Velocity
2	Vector
3	Series
4	Tangent
5	Sigma Notation
6	Sine
7	Sinusoidal Function
8	Area Under Curve - Accumulation
9	Parametric Equation
10	Periodic Function
11	Phase Shift
12	Polar Coordinates
13	Recursive Equation
14	Asymptote
15	Continuity/Discontinuity
16	Cosine
17	Inflection
18	Limit
19	Optimization - Minimum and Maximum of a Function
20	Concavity
21	Infinity
22	Unit Circle
23	Amplitude
24	Sequence
25	Negative Angle
26	Reference Angle
27	Coterminal Angle
28	Cosecant
29	Secant
30	Cotangent
31	Polar Equations
