Big Idea/Enduring Understanding	Guiding Questions
Ideas must be developed and organized in order to be communicated effectively.	<ul style="list-style-type: none"> Why is it important to learn how to use different resources? What makes a source credible? How can new understandings from research be presented for others?

The resources included here provide teaching examples and/or meaningful learning experiences to address the District Curriculum. In order to address the TEKS to the proper depth and complexity, teachers are encouraged to use resources to the degree that they are congruent with the TEKS and research-based best practices. Teaching using only the suggested resources does not guarantee student mastery of all standards. Teachers must use professional judgment to select among these and/or other resources to teach the district curriculum.

Knowledge & Skills with Student Expectations	Specificity & Examples	Suggested Resources (Read the note above)	
Reading:			
<p>4.2 Reading/Vocabulary Development. Students understand new vocabulary and use it when reading and writing. Students are expected to:</p> <p>4.2A determine the meaning of grade-level academic English <i>and/or Spanish</i> words derived from Latin, Greek, or other linguistic roots and affixes</p>	<p>On-going throughout the year following the district Affixes list. These are NOT to be taught all at one time, but spaced out throughout the year as appropriate.</p>	<p>Instructional Resources:</p> <p>Affixes List</p> <p>Spelling Resource Divided by Language of Origin</p>	<p>Learning Centers/Stations Resources:</p>
<p>4.2 Reading/Vocabulary Development. Students understand new vocabulary and use it when reading and writing. Students are expected to:</p> <p>4.2B use the context of the sentence (e.g., in-sentence example or definition) to determine the meaning of unfamiliar words or multiple meaning words;</p>	<p>Note: TAKS-4.9B Draw on experiences to bring meanings to words in context such as interpreting figurative language and multiple-meaning words.</p> <ul style="list-style-type: none"> An analysis of the words that are tested indicates that TAKS takes a very broad view of “figurative language.” Traditionally, figurative language has been defined as “language that is not literal; metaphorical language.” The figurative language that is 	<p>Instructional Resources:</p>	<p>Learning Centers/Stations Resources:</p>

Writing:			
<p>4.15 Writing/Writing Process. Students use elements of the writing process (planning, drafting, revising, editing, and publishing) to compose text. Students are expected to:</p> <p>4.15A, 4.15B, 4.15C, 4.15D, 4.15E (All Writing Process SE's)</p>	<p>The Writing Process: This should be an ongoing process during every bundle in which students are actively involved in the entire writing process. Students should be working through the process individually with the goal of periodically completing and publishing a finished piece of writing. Mini-lessons should focus on new skills and student needs.</p>	<p>Refer to Bundle 1 for resources.</p>	<p>Fourth Grade Menus and Grids</p>

<p>4.9 Reading/Comprehension of Text/Independent Reading. Students read independently for sustained periods of time and produce evidence of their reading. TAKS-4.10H (see 4.3A)</p> <p>4.9 Students are expected to read independently for a sustained period of time and paraphrase what the reading was about, maintaining meaning and logical order (e.g., generate a reading log or journal; participate in book talks).</p>	<ul style="list-style-type: none"> • This is an ongoing reading process skill. Students should read at their independent level (95% accuracy) at least 5 times per week for approximately 60 minutes. (This time does not need to occur in one consecutive block. It may include reading time at home, before school, DEAR time, etc.) • Students should receive regular reading instruction with texts which are challenging but manageable (90% - 94% accuracy). • Students should be able to read for 30 consecutive minutes by the end of 4th grade. (It may not be possible to accomplish this daily, but students should have regular experience with sustained reading.)

Reading/Comprehension Skills. Students use a flexible range of metacognitive reading skills in both assigned and independent reading to understand an author’s message. Students will continue to apply earlier standards with greater depth in increasingly more complex texts as they become self-directed, critical readers. The student is expected to:

- (A) establish purposes for reading selected texts based upon own or others’ desired outcome to enhance comprehension;
- (B) ask literal, interpretive, and evaluative questions of text;
- (C) monitor and adjust comprehension (e.g., using background knowledge, creating sensory images, rereading a portion aloud, generating questions);
- (D) make inferences about text and use textual evidence to support understanding;
- (E) summarize information in text, maintaining meaning and logical order; and
- (F) make connections (e.g., thematic links, author analysis) between literary and informational texts with similar ideas and provide textual evidence.
