Business, Management & Administration

Agriculture, Food & Natural Resources

Agribusiness Management & Marketing - 7506
Credit: ½ **Grade: 10-12**
Prerequisite: *None*
This is an introductory course in business management in the free enterprise system. This course covers the study of economic principles, budgeting, record keeping, finance, risk management, law, marketing and careers related to the fields of agricultural and natural sciences.

Business Education

Business Law - 7101
Credit: 1/2 **Grade: 11-12**
Prerequisite: *Grade level classification*
This course introduces law and the necessity of the legal system that govern business operations in our society. This course prepares students with the understanding to carry concepts over into future business ownership and also for college prep in studies for business majors.

Business Management - 7102
Credit: 1/2 **Grade: 11-12**
Prerequisite: Computer skills
This course introduces students to basic management concepts and leadership styles found in the business world. Students explore managerial functions, economics and other components of productivity in the business environment. Students work on various projects to develop a business plan. This course offers students a background in owning their own business and future post-secondary studies in various business majors.

Business Ownership – 7105
Credit: ½ **Grade: 11-12**
Prerequisite: *None*
This course provides theoretical base with practical and proven techniques for planning, organizing, and operating a business. Includes financial and organizational consideration, market analysis and customer development, accounting and financial records and other components of entrepreneurship.

International Business – 7104
Credit: ½ **Grade: 11-12**
Prerequisite: *None*
This course introduces the concepts of the global market and economy and international trade, examining the operations, cultural differences and effects of differences on managerial practices and international law, as well as the impact on the domestic and global economy and foreign governmental practices.
